PREFACE

This report is one in a series on Soviet Ground Force and Logistic installations being prepared for a DLY CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center 1P1a-DLY. The photographic analysis for this particular report was performed by the Production Center 1P1a.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: A: railroad service, B: road service, C: landing strips, D: administrative and troop housing areas, E: storage areas, F: ammunition storage areas, G: POL storage areas, H: other buildings and facilities, J: equipment storage maintenance areas, K: athletic fields, L: small arms firing ranges, M: driver training areas, N: tank assault gun firing ranges, P: flat trajectory firing ranges, Q: artillery emplacements batteries, R: infantry or combined arms field training areas or courses, S: special training facilities, T: unidentified facilities or tracking activity.

driver-training tracks.

Tank Assault-Gun Firing Ranges

Area N is a 3,400-foot tank assault-gun firing range with two 1,800-foot lanes and 3 possible moving targets. Trackage indicates heavy usage of the tank lanes; however, there is very little ground scarring in the vicinity of the target area, indicating the range is not used very often or that it is used only for subcaliber firing.

Flat-Trajectory Firing Ranges

Area P is a 2,300-foot probable firing range

with several targets at varying distances. The firing line appears to have 3 circular areas--one at each end and one in the center. The area in the vicinity of the targets does not reveal much usage.

Unidentified Facilities

Area 11 contains what appears to be a partially constructed road with 2 scarred areas leading from it.

Area 12 contains heavy ground scarring similar to that found on flat-trajectory firing ranges; however, no firing line is visible.
